Dear Ms. Adams:

This is to advise you that the Bay Area Air Quality Management District is issuing a significant revision to the Major Facility Review permit for the following facility.

Facility Number	Facility Name	Application Numbers	Permit Engineer	City	County
B8136	Russell City Energy Company, LLC	29626 29709	Xuna Cai	Hayward	Alameda

The purpose of the significant revision is to incorporate permit condition changes associated with the addition of black start capability to the facility's natural gas fired combustion turbines. The black start project was reviewed and approved under New Source Review application #29348. This permit revision also includes application #29709, which is an administrative amendment to change the facility's responsible official for Title V.

The 30-day public comment period for the proposed significant permit revision ended on June 18, 2019 and the 45-day EPA review period ended on July 5, 2019. We did not receive any comments from the public, EPA, ARB or the facility.

The final permit can be viewed on the BAAQMD website at <http://www.baaqmd.gov/permits/major-facility-review-title-v/title-v-permits>. We will also post the permit to the EPA Central Data Exchange. If you have any questions regarding this project, please call Dennis Jang, Supervising Air Quality Engineer, at (415) 749-4707.

Sincerely yours,
